

How you can support your child at home:

Encourage them to read – anything and everything!

Look at Google Classroom regularly; the expectation is that all students complete home-learning

Make sure your child has the right equipment with them everyday (pen, pencil, ruler etc.)

Art:

students will be investigating the theme of 'eyes' using a variety of media and techniques such as drawing, painting, oil pastels, monoprinting and collage.

Computer Science:

Developing for the Web: Students will create web sites using html and css. They will add images, links and interactions

Drama:

Life/transferable skills – Students will learn a range of skills in preparation for life after education. This will include interview techniques, conflict resolution, debate, promoting a positive image, first impressions, writing CV, covering letters and presenting information

English:

The Curious Incident of the Dog in the Night-time – students will read the play version of this popular mystery text. Students will work on their skills of analysis and evaluation

French:

What are the differences between life in France and the Ivory Coast: Students will study the relationship that France has with the Ivory Coast and learn about its geography, population and food

Geography:

Biomes and Climate Change: Students will develop knowledge and understanding of the processes and interactions between people and the environment

History:

Classical Studies: Egypt, Greek, Rome: Students will study the societies and cultures of the classical world within the Mediterranean

Maths:

Quadratic graphs; angles and bearings; transformations; similarity and congruence; assessment

Music:

Studying the history and background of Popular Music. Learning how to perform as a soloist or member of an ensemble. Reading different forms of notation e.g. score, lead sheet, guitar tablature

Personal Development:

Power and Control: Students will look at consent and assertiveness in intimate relationships

PE:

Games: students will take part in Striking and Fielding Games
PE: all students will take part in athletics

RE:

How is religion changing in modern society?: Students will explore different types of religion, secularisation and how religion has changed and why

Science:

Students will study: electricity, using resources, enzymes and digestion and health and lifestyle. They will also revise for an end of year test

Technology:

Students will rotate through the three areas in Technology:
Design Technology: students will learn to design and make a money box using practical skills and computer aided design. This will be themed around Carisbrooke castles stained glass windows.. Food and Nutrition: Students will look at the physical and chemical properties of ingredients. Graphics: Students will use the skills from Year 7 and 8 to create suitable, sustainable creative ideas
